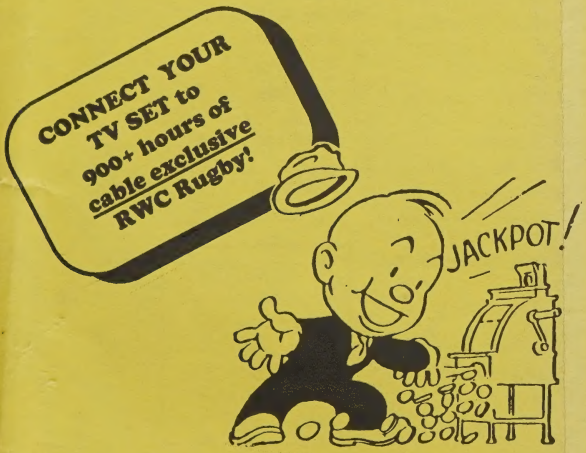
TV that you can take home with you -

Far North Cable TV, Ltd.



Service available at most locations

from Mangonui to eastern Taipa

call us on 406 0651 or 406 1282

Having cable TV in your home is all about choice - giving you the freedom to select new and unusual programming not available from TV One, TV2 and TV3. Cable is also about unique services not available through ANY other source in Northland or in fact all of New Zealand!

Cable is a "marriage" of ALL TV sources into one wire which we connect directly to your TV set or sets. Cable replaces your aerial combining studio-grade reception with unsurpassed clarity. All of your normal TV channels are "in the wire" including TV ONE, TV2, TV3 plus Auckland's TV4, Prime and TAB.

To those channels we add services received by satellite creating a seamless visual feast channel after channel after channel - each unique in content, and unsurpassed in visual clarity and perfect sound.

Cable is also about once-in-a-lifetime viewing opportunities. An example.

From October 10 to December 20 (2003), on cable channel 4, a 24 hour per day **RUGBY WORLD CUP** channel. Only on cable - more than 900 hours of RWC coverage which won't be on TV ONE, or any other TV service (including Sky!). People who don't have cable are purchasing special equipment to receive this RWC Channel for between $300 and $500. On cable, this channel is without additional charge - a **BONUS** for being a cable connected home!

Cable has many other features that nobody else can offer. For example, if you have two (or more) TV sets in your home, each can be connected to cable and each will have its own independent selection of programming. There is NO increase in monthly charges for this provided you have a cable-ready TV set (if you don't and we supply a cable box for your additional TVs, a modest charge of $4.50 per month per box).

Isn't it about time you became a cable TV home? No long term contract required - month to month!

Far North Cable TV, Ltd 406-1282 or 406-0651
